Supplement Request:

Per carrier request we have reviewed the CTR repair estimate in the amount of \$35,600.16 the CTR repair estimate includes replacement of Dwelling and Detached Garage.

After reviewing the photos and estimate, we are in agreement with replacing the detached garage roof as carrier requested.

However there is still an difference in price between the revised repair estimate and CTR repair estimate. Detached garage is a standard 3 tab roof contractor has requested replacement of the same laminated shingle that is on the dwelling which is an upgrade in material and not warranted.

CTR has an upgrade on both structures to synthetic felt which is not warranted.

IWS was already included on the Dwelling, Detached Garage is not headed and IWS is not warranted.

Starter is not warranted on either building and is included in CTR Repair estimate

All changes are in bold. Agreement with CTR was not reached.
