What You Need to Do

Your next step is to repair your home. Please know we will continue to guide you through this entire process.

Safeco usually has relationships with experienced contractors in your area. I can recommend a contractor to you. If you prefer to find a contractor on your own, your Claims Representative can provide you with information and guidance on finding a reputable contractor or you can find this information at <https://www.safeco.com/claims/home-claims>.

In some instances, additional or hidden damage connected to a claim that may not have been visible and was therefore not included in the initial estimate is found. If the contractor finds such damage, please contact me before any work begins. All additional work must be pre-approved by Safeco and may require an inspection of the damage.

After repairs are complete, if you've made any improvements to your home, or replaced the roofing shingles on your home, you'll need to update your policy accordingly. For assistance, please contact your Sales Agent or call **800-225-7014**.

Depreciation

Depreciation refers to dollar amount difference between your property's actual cash value accounting for age, maintenance and general wear and tear and its replacement value. If your policy allows it, we will reimburse you for your property up to the amount it would cost to repair or replace the item.

Once the repairs are complete or the items are replaced, please submit paid bills, receipts and/or cancelled checks for the repairs or replacement items by email, fax or to the mailing address listed above. Documents can also be instantly uploaded through your Online Account.

When submitting receipts for the replacement of personal property, please include the claim number on all receipts, bills paid, and cancelled checks.

Once we receive your documentation, we will consider payment of the difference between your charges for repair or replacement cost and the actual cash value of the loss. Please be advised that we may require a reinspection of the repairs.

You must make claim for recoverable depreciation within 6 months of the later

- a) The last date you received a payment for actual cash value; or
- b) The date of entry of a final order of a court of competent jurisdiction declaring your right to replacement cost.

Policy Forms and Endorsements may amend the general terms and conditions for claiming recoverable depreciation. For a complete explanation, please refer to your policy or ask your Claims Representative.
