Other Structures	\$0.00	\$35,600.00
Contents	\$0.00	\$178,000.00

Dear NICHOLAS ELKEVIZTH MICHELLE ELKEVIZTH :

We have prepared this estimate regarding your loss or damage. A letter that explains your coverage and benefits is being sent to you separately. Because the information in an estimate serves as the basis for a determination of your benefits, you (and if applicable, your contractor) should review this estimate carefully. Let us know immediately (and prior to beginning any work) if you have any questions regarding the estimate.

Under most insurance policies, claim settlement begins with an initial payment for the actual cash value of the covered loss or damage. To determine actual cash value, we estimate the item's replacement cost, and then, if appropriate, take a deduction for depreciation. Depreciation represents a loss in value that occurs over time. In determining the amount to deduct for depreciation, if any, to apply to an item, we consider not just the age of the item immediately prior to the loss or damage but also its condition at that time. For each line item included in this estimate, the estimate shows not only the estimated replacement cost value, but also the amount of depreciation (if any) applied to the item, the item age and item condition upon which the depreciation (if any) was based and the item's actual cash value.

Thank you for allowing us to be of service, and thank you for choosing TRAVCO INSURANCE COMPANY for your insurance needs.

You can check the status of your claim, view your policy and much more at www.mytravelers.com.

Answers to commonly asked questions can be found at <https://www.travelers.com/claims/manage-claim/property-claim-process>

You can also upload documents directly to your claim at www.travelers.com/claimuploadcenter.

Guide to Understanding Your Property Estimate

Common Units of Measure

EA – Each	CY – Cubic Yard
LF – Linear Foot	SQ – Square
SF – Square Foot	HR – Hour
SY – Square Yard	DA – Day
CF – Cubic Foot	RM – Room

Your Estimate Cover Sheet

The cover sheet of your estimate includes important information such as:

- (A) Your Travelers claim professional's contact information
- (B) Your claim number
- (C) The types of coverage under your policy, including the applicable deductibles and policy limits.
- (D) Your estimate may include policy sublimits for specific items, such as money. Each sublimit has a unique ID tag. That ID tag will appear next to any line item subject to the sublimit.

Your Estimate Detail

This is where the details about your lost or damaged property can be found.

- (E) Description – Details describing the activity or items being estimated.
- (F) Quantity – The number of units (for example, square feet) for an item.
- (G) Unit – The cost of a single unit.
- (H) Replacement Cost Value (RCV) – The estimated cost of repairing a damaged item or replacing an item with a similar one. RCV is calculated by multiplying Quantity x Unit Cost.
- (I) Age – The age of the item.
- (J) Life – The item's expected life assuming normal wear and tear and proper maintenance.
- (K) Condition – The item's condition relative to the expected condition of an item of that age. (New, Above Average, Average, Below Average, Replaced)
- (L) Depreciation % – The percentage of the loss of value that has occurred over time based on factors such as age, life expectancy, condition, and obsolescence.
- (M) Depreciation – Loss of value that has occurred over time based on factors such as age, life expectancy, condition, and obsolescence. If depreciation is recoverable, the amount is shown in (. If depreciation is not recoverable, the amount is shown in < >.
- (N) Actual Cash Value (ACV) – The estimated value of the item or damage at the time of the loss. Generally, ACV is calculated as Replacement Cost Value (RCV) minus Depreciation.
- (O) Labor Minimums – The cost of labor associated with drive time, setup time and applicable administrative tasks required to perform a minor repair.

Your Estimate Summary

For each type of coverage involved in your estimate there is a summary section that shows the total estimated costs (RCV and ACV) and net claim amount for the coverage type. The example to the right depicts a Dwelling coverage summary.

- (P) Line Item Total – The sum of all the line items for that particular coverage.
- (Q) Total Replacement Cost Value – The total RCV of all items for that coverage.
- (R) Total Actual Cash Value – The total ACV of all items for that coverage.
- (S) Deductible – The amount of the loss paid by you. A deductible is generally a specified dollar amount or a percentage of your policy limit.
- (T) Net Claim – The amount payable to you after depreciation and deductible have been applied. This amount can never be greater than your coverage limit.
- (U) Total Recoverable Depreciation – The total amount of depreciation you can potentially recover.
